### Letter of Recommendation

It is my great pleasure to write this letter of professional recommendation on behalf of Nickxit Bhardwaj in his pursuit of employment. I supervised Nickxit as an app developer and social media adviser in the finance department of the University of Wuppertal (BUW). He stayed at our department between January 15, 2018 and March 31, 2018. He was an excellent employee I enjoyed working with.

Nickxit came to our department without any experience in app development. However, he quickly managed to acquire the necessary skills to support us in developing cross-platform apps using Xamarin/C#. He supported us in creating an app for our local business survey. In addition to the app, we jointly developed an SEO strategy for the app and the related website. He successfully finished the project at the end of his internship. He managed to stay organized and delivered the assigned tasks on time even when he had to deal with tight deadlines. In addition to his IT skills, Nickxit also acquired knowledge in empirical macroeconomics and survey methodology.

We were impressed by his social media marketing. skills He did a great job in managing the social media campaign for the local business survey. He also assisted us in developing presentations and brochures using Adobe Illustrator and Adobe InDesign.

Schumpeter School  
of Business and Economics

He helped me a lot with the preparations of the WIFOP institutes opening ceremony. Besides general administration, he assisted the hired film crew and audio engineers in producing an image film and podcasts.

His overall performance was excellent. He can work independently, but he is also a great teammate. His behavior towards his superiors and colleagues was always exemplary, friendly and beyond reproach. He accepts constructive criticism and continuously tries to improve his coding skills. Therefore, I am convinced that he can be an asset to any future employee.

Kindest regards,

A handwritten signature in black ink that reads "André Betzer". The signature is written in a cursive, slightly slanted style. The first name "André" is written with a capital 'A' and a small 'é' with an accent. The last name "Betzer" is written with a capital 'B' and a trailing flourish.

(Prof. Dr. André Betzer)
